TGC40-K

Features

Regulated Converter

- 1.6"x3", optional 2"x3", low profile
- 40W power from -40°C up to +60°C ambient
- Operating temp. up to +85°C with derating.
- OVCIII, 4 kVac/1min reinforced isolation
- 2MOPP medical certified, B and BF compliant
- 5000m (medical/ITE) operating altitude
- Class B EMC filter built-in

Description

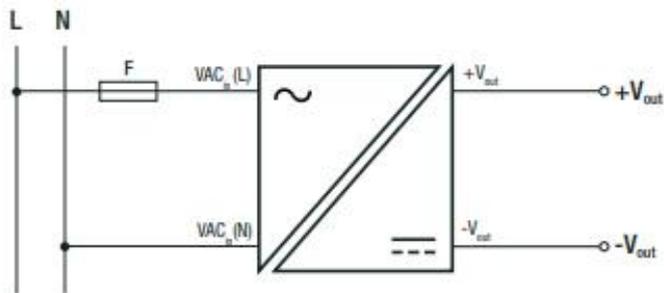

The ultra-compact versatile, industrial + household + medical grade AC/DC converter series TGCM40-K delivers 40 watts of output power from -40°C to +60°C with natural air convection only, and up to +85°C with derating or forced air cooling. With a clear focus on extended thermal performance for systems where space is limited, these 1.6" x 3" compact modules are designed to gain highest overall efficiency levels over the full output load range from universal AC inputs. The TGCM40-K/OF has ANSI/AAMI/IEC 60601-1 medical safety and EN 60601-1-2 medical EMC certifications, 2MOPP, to meet B and BF requirements, 4kVac/1min isolation and offers OVCIII certified to IEC61558. It is additionally certified (CB Report) IEC/EN 62368-1; IEC61010 and IEC61558-1/-2-16 for industrial applications and IEC/EN 60335-1 for household appliances. The robust built-in class B EMC filter has sufficient margin to allow either Class II or Class I PELV with grounded output installations. A range of mechanical fixing options makes the RACM40-K suitable for many different mounting conditions: the standard chassis-mount part mates with Molex connectors, and the /PCB option permits direct installation in printed circuit boards. Additionally, a 2" x 3" footprint for backward-compatibility retrofit for legacy designs is available on request.
